

BEYOND MEAT®

BURGERS EVERYBODY CAN EAT

WORLD'S FAMOUS BURGER

Beyond Meat invented the plant-based (vegan) burger and turned it into a global craze. You might have only heard rumors, but this is the original phenomenon that has only gotten tastier, better, and more successful. It drives in new shoppers, popular with the younger generation, and most importantly—it sells!

VEGGIE MENU OPTIONS

Built specifically for restaurant, cafe and foodservice kitchens, Beyond's plant-based range upgrades your veggie menu without the headache. Leave the long prep, and high waste of scratch-made veggie patties. With quick cook times from frozen and exact portion control, you get consistent dishes while slashing your food costs.

**When it comes to Vegan &
Vegetarian Burger -- BEYOND is #1.**
